

## *From Mayor Lyle Nelson...*

**I believe you may have signed the petition to recall me as your mayor.**

I am contacting you because I believe you may have been misled by a small group of my political opponents who carried petitions door to door to remove me through a recall election.

They did this by falsely alleging that I was involved in "misuse of public funds."

Audits and investigations were conducted, concluding that there is NO evidence I have ever caused or permitted ANY misuse of ANY public funds.

They want you to believe this is about me. But it's really about them seeking power and control. It's about a voting majority meeting in private. It's about future growth in our small town. It's about open or closed government.

Join me at Tuesday's (8/13) City Council meeting. New City Charter amendments, City Council rules, and this recall petition will likely be on the agenda. It starts at 6:30 and will be a lengthy meeting. Thank you. *Lyle Nelson, Mayor*
